Trash Can

mini DUSTMUG

Handy tidy-up for kids.

- A return and refreshed design for 20th anniversary.
- We remodelled this product as one of our customers told us it helped his kids learn about recycling and now he wants to teach his grandkids.
- The fun design looks like a giant mug but it has two sections to divide small trash.
- The attractive appearance and reduced size means the DUSTMUG conveniently sits on a work surface, desk or make up area.

Trash can mini DUSTMUG
