Wet Tissue Case

## Mochi Bin

A cute and nostalgic shaped upright case dispensing wet sheet rolls.

The wooden stopper controls the moisture. We have made the lid and the slot dispensing the tissues one single unit. We believe this makes the item stronger and more reliable for you. The jar is wide, and the slot is zig-zag making it easy to refill. This is a unique design and Ideaco is applying for the PAT. The container is made from eco-friendly materials; Melamine, Bamboo powder, Silicon, and rubber Wood.

Wet Tissue Case Mochi Bin
