Original Item Usable Even When Attached

A smart and sleek case with magnetised back is designed to hold a 30cm roll of cling wrap. This is a space saving solution for the kitchen as the cling wrap dispenser magnetises to a fridge or metal device onto curved surfaces. The magnet of the dispenser is strong enough to conveniently use the dispenser whilst magnetised to a fridge. Our design has a superior cutting edge making usage easy and simple. The round supports inside the dispenser helps the cling wrap to roll evenly during use. More supports at the ends secures the roll inside the dispenser during use. A clever design in many ways!
