Tissue Case

## compact tissue case

MINIMAL  
STYLE  
DESIGN.

ideaco-web.com

For use with compact tissues only. Can be attached to the wall with the included strip magnets. Available in 12 colors.

Reacting to environmental and economic changes, we have designed a compact tissue case. The case can be mounted on a vertical surface with screws or magnets. If placed on a flat surface the base of the case benefits from a non slip silicon.

Tissues sized width 16.5cm, depth 10cm, height 6.5cm, or smaller, are a suitable fit for this case.

It has slip grad on the bottom.

### Tissue Case compact tissue case
