## Convenient wall idea

A discreet and neat tissue dispenser is useful in both living and workspace. The tissue case is mindfully designed to refill the tissue supply easily for your convenience. The wall mounted product provides surfaces a spacious and aesthetically pleasing environment. Tissue case WALL can be screwed into the desired place or attached to a tiled surface with the included padded self adhesive squares.

You can set up them using plaster board pins or pins on your wall.

You can also set up them on tile coating surface when you use the accessories.
